

**CANDIDATE FOR DIRECTOR
MOJAVE WATER AGENCY, DIVISION 6**

NAME: BEVERLY J. LOWRY

OCCUPATION: Director, Division No. 6

I am Beverly Lowry, candidate for re-election to the Mojave Water Agency Board of Directors. I have served faithfully to represent the interests and concerns of residents throughout Barstow, surrounding communities, and the Victor Valley.

One of my proudest achievements has been the completion in March 2006 of the 76-mile Mojave River Pipeline, something on which I worked tirelessly to make a reality. Water originating from Northern California is now flowing to the communities of Hodge, Lenwood, Daggett and finally to Newberry Springs.

Securing the funding, rights of way and other considerations required someone who is a consensus builder and works diligently to find solutions to get things done. I am proud of my efforts working with my board colleagues and numerous local, county, state and federal officials to achieve our goal of providing a reliable water supply.

I have been and will remain a strong advocate to insist that MWA plan long-term to meet present and future water demands. I was a champion for adoption of the Regional Water Management Plan, a 20-year planning document that forced us to look ahead.

Serving you is an honor and a privilege. I look forward to continuing my efforts on your behalf.
